DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 192-266, drawn to a method of making a plasma display device, classified in class 445, subclass 24.

Group II, claim(s) 267-274, drawn to a plasma display device, classified in class 313, subclass 486.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claims of Group I disclose clear, defined manufacturing steps, which are not disclosed by the claims of Group II, while the claims of Group II disclose a plasma display with a particular chromacity and/or phosphor layer, which is not disclosed by the first group of claims. Furthermore, the plasma display of Group I can alternatively be made by instead of the bonding step being performed while a dry gas is circulated in an inner space, the bonding step could be performed after a dry gas is circulated in the inner space.

3. A telephone call was made to Mr. Joseph Price on 06 January 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
